

Eisai - Carbon Reduction Plan

Supplier name: Eisai Europe Limited, incorporating Eisai Limited, Eisai Manufacturing Limited

Publication date: April 2025

Commitment to achieving Net Zero

Eisai Europe Limited is committed to achieving Net Zero emissions by 2045.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022 (Financial Year)	
Additional Details relating to the Baseline Emissions calculations.	
Eisai Europe Limited has set a base year based on financial year (FY) 2022 (Reporting period 1 st April 2022 – 31 st March 2023), following robust data analysis of all EMEA regional affiliates. The base year has been used as the period prior the introduction of specific strategies to reduce emissions and are the reference point for all future carbon emissions monitoring.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	3,565.46 tCO₂e
Scope 2	31.58 tCO₂e – Market Based Data
Scope 3 (Included Sources)	12,597.26 tCO₂e
Total Emissions	16,194.3 tCO₂e

Current Emissions Reporting

Reporting Year: Financial Year 2023	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	4,021.6 tCO ₂ e
Scope 2	82.67 tCO ₂ e – Market Based Data
Scope 3 (Included Sources)	16,791.81 tCO ₂ e
Total Emissions	20,896.08 tCO₂e

Emissions reduction targets

Eisai Europe Limited (incorporating Eisai Europe Ltd, Eisai Limited & Eisai Manufacturing Limited) have committed to net zero by 2045 through the Science Based Targets Initiative (SBTi) and have in 2023 received approved short term and long-term targets validated by SBTi.

Short Term Targets

Eisai has committed to reduce carbon emissions as per targets below from an FY22 baseline:

- 62% reduction in our Scope 1 and 2 GHG emissions by 2032
- 41% reduction in our Scope 3 GHG emissions by 2032
- 83% reduction in our Scope 1 and 2 GHG emissions by 2040
- 73% reduction in our Scope 3 GHG emissions by 2040

Long Term targets:

Eisai has committed to reduce our absolute carbon emission in Scope 1, 2 and 3 GHG emissions by 90%, and becoming Net Zero by April 2045

Progress against these targets will be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

Eisai is developing detailed carbon reduction plans to achieve net zero by 2045. Eisai's UK operations already procure 100% electricity from renewable sources as well as energy initiatives such as switching to LED lighting across the facilities. In April 2024, Eisai's UK operations switched to procurement of Biogas to reduce scope 1 emissions.

Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- On-site renewable energy generation - working with teams to determine the feasibility of providing onsite renewable energy.
- Energy efficiency projects - working with our UK teams to optimise existing assets and reduce energy requirements across UK site.
- Working with our supply chain to ensure sustainable procurement practices including through our logistics and transport distribution.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

¹<https://ghgprotocol.org/corporate-standard>

²<https://www.gov.uk/government/collections/government-conversion-factors-for-company-reporting>

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
